Our success would not be possible without your support and partnership. We hope to create effective communications that will ensure maximal success in our partnership. Some of our greatest assets are our unquenchable commitment to sustained community revitalization, elimination of various forms of inequities, improving the health of the community, bringing together people and resources to strengthen bonds and empower the community for a sense of change, and providing a world-class mentoring program to students. This year's tournament goal is to increase our support for the programs and community service listed below.
